

Baldivis 9000

Kootingal Mews Baldivis, Western Australia

Designed by LD Total
Client - Australand

LD Total individually designed the front and rear landscapes with either a formal, contemporary or Australian theme. Each unit displays its own point of difference with individually selected plants, varying planting style & garden bed layout, whilst keeping within its chosen theme. Street trees were used to link the themes to the estate as a whole entity.

The landscaping, which included planting, mulching and turfing, was completed by LD Total, and the reticulation was installed by Total Eden.
