

JAPANESE DISPLAY HOME

Bunbury
Western Australia

LD Total were provided a brief to design and construct a contemporary take on a Japanese themed display home. Strong colours were used whilst incorporating contemporary materials.

A twist on the traditional Japanese garden was created using:

- an authentic Granite water pot with stainless steel water spout
- granite pavers
- modwood decking
- stunning feature outdoor shelter
- rock clad wall with plants that suit the Japanese theme and our harsh summer and waterwise conditions
