

KENSINGTON GARDENS

Nicholson Road
Canning Vale, Western Australia

DESIGNED BY - LD Total

LD Total completed the design and construction of Kensington Gardens residential subdivision. Design involved working closely with the project engineers in order to integrate a compensating basin within the Public Open Space.

Design and construction involved both hard and soft landscape elements such as the POS layout incorporating the compensating basin, plant selection and layout, playground equipment, limestone walls, gazebo, paving layout, furniture design and colour co-ordination of furniture and street lighting.
